- We will guarantee the submission can be delivered before 22 December 2023.
- 2 rounds of revision will be given to the client.
- We work professionally accordingly on what stated in the work contract and our T&C.

DESIGN PROCESS

Our 3 Main Strategic Branding Initiatives

Research

Develop

Evaluate

We did a research to define what “ASCOTT UNLIMITED” is, into what we can digest and encompass this information into the overall branding, conception and design work. We develop the ideas based on given creative directions with attention to details and creativity.

Everything will be designed, to set new visuals and fresh messaging tone that showcases the 40th Anniversary of The Ascott Unlimited. We make sure to keep and protect the core values of The Ascott Limited and convey the message to our target audience which are TAL’s people, business partners, and travelers/hotel guests. Once the main logo has been chosen, the key visuals also can be finalized on as soon as possible.

We then will be ready to evaluate it together and get feedback from your side. The evaluation will give use insights what can be more optimized. Our team always tries to stay in the track to avoid any wasted efforts in the process.

VISUALIZATION

This logo initially designed for the celebration of the 40th Anniversary of The Ascott Limited. With this design, we tried to project a modern and relevant design that got inspired by past and current legacy of TAL. We emphasized the infinite possibilities that The Ascott Limited could offer, as a highly esteemed and trusted hospitality company across Asia Pacific, Central Asia, Europe, the Middle East, Africa, and the USA.

The easy to digest design expected to quickly motivate and deliver the celebration message and its pledges to target audience and every TAL's stakeholder, moving forward from and beyond 2024. Design mnemonic that we used is the "infinite loop" symbol dan we incorporated into the "ASCOTT" part from the official The Ascott Limited logo. Using modern serif font that feels future proof and elegant, matched with TAL's aesthetics. Using is dark blue/teal as the main color that is associated with elegant, modern and fortune, meanwhile bright white/grey color can be used as the alternative natural color.

Every aspect of this design is only an example that we envisioned with this limited time and resouce right now, however the shape or the color can be changed later, we can develop and explore this concept more later on if we are confirmed of our cooperation.

Main Logo

Alternatives

Main Initial KV

Alternative Initial KV

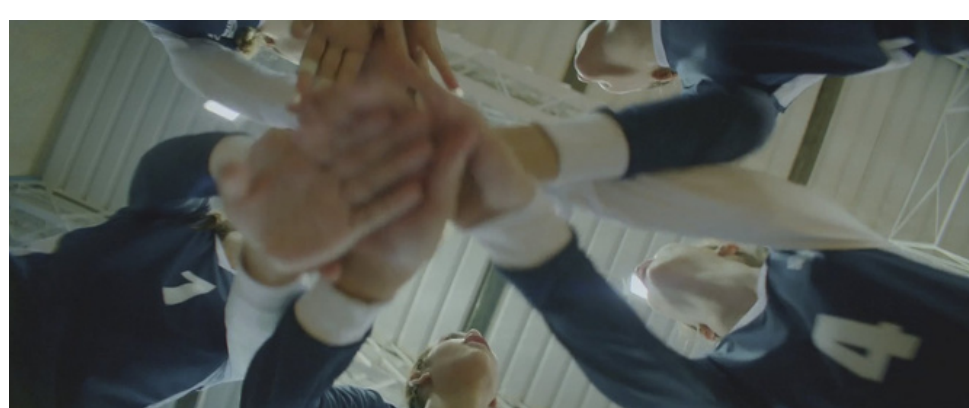

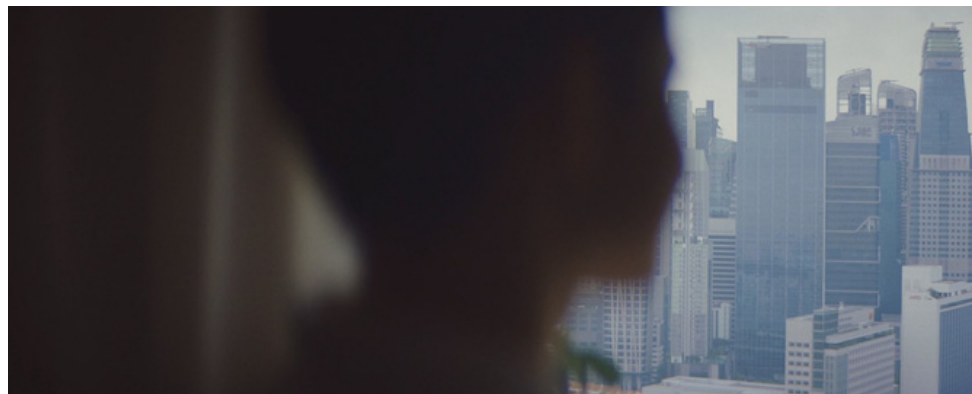

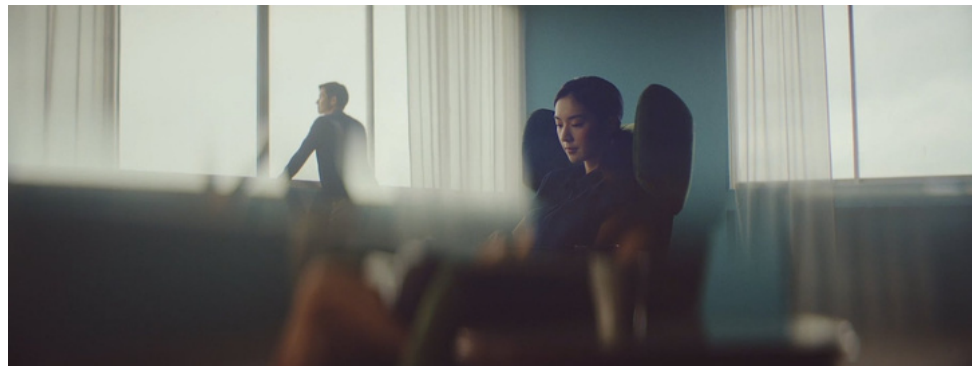

This is our initial design for the key visual that we envisioned in this limited time, the design can be explored more and revised to your need later on. With this design, the idea is we wanted to showcase first the elegant and modern details that resonate with The Ascott Limited as a brand and hospitality company. Minimalist but still informative and feels cozy.

Through tagline “Feel The Infinite”, we tried to express and make the audience quickly understand the “Ascott Unlimited” campaign is about to experience and feel with everything that associated with TAL’s established products and services. Also, what we feel can be added into this design is something like a typography or a graphic that says or shows the “40th Anniversary”. This is basically our starting point and can be develop more when our cooperation confirmed.

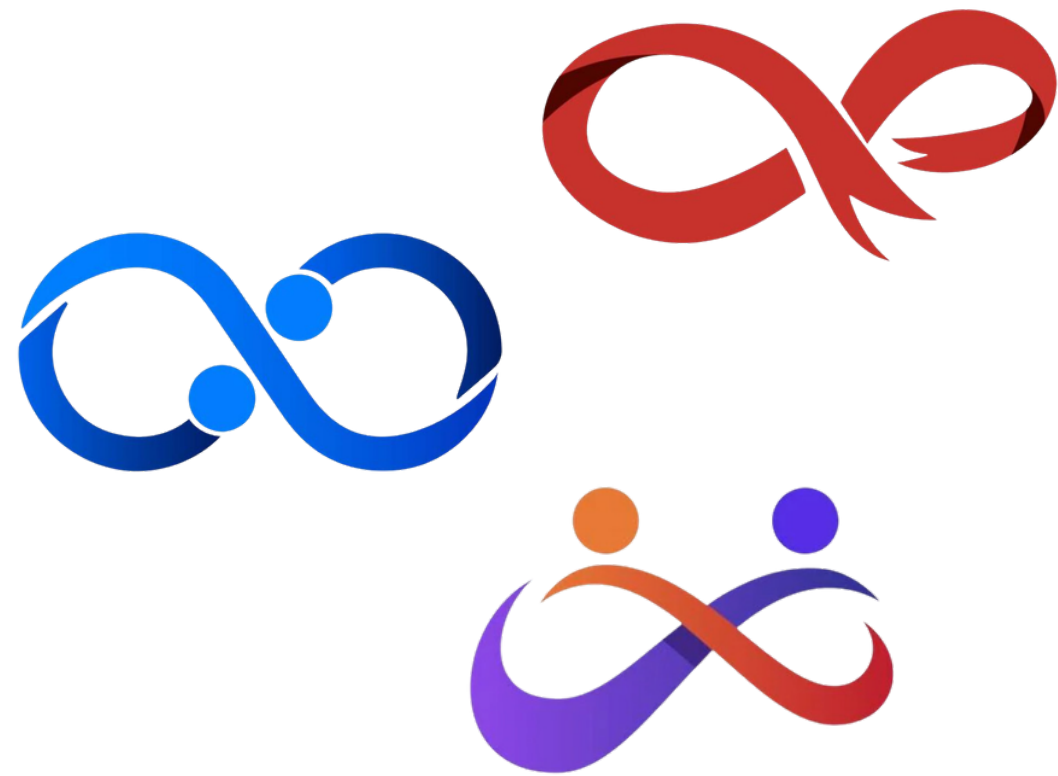

MOODBOARD

Through our captivating visual design in this Ascott Unlimited campaign, we wanted to convey and deliver the feeling of having infinite possibilities and sense of synergy in business and leisure which resonated with The Ascott Limited's core values, in the past, for now and beyond tomorrow.

REFERENCES

These are creative references/inspos from other people that we feel can also be developed main key visuals. What we thought is that these references can be translated into our own logo design or KV and mainly for stylizing for each segmented target audience.
